### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Meaney on November 7, 2005.

2. This application is in condition for allowance except for the presence of claims 38-44 to the invention non-elected without traverse. Accordingly, claims 38-44 have been cancelled. All remaining claims (*Groups I, III and IV*) have been examined on the merits.

3. The application has been amended as follows:

**Cancel Claims 38-44**

Claim 1, line 9: **delete** "for" and **insert** - -, said memory- - prior to "storing"

Amend claim 7 as follows: - -The pulsator controller of claim 1 wherein data stored in the memory is from a programmable device.- -

Claim 26, line 12: **delete** "for" and **insert** - -, said memory- - prior to "storing"

Art Unit: 3644

Claim 51, line 17: delete "for".

4. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious the invention as claimed. Gentner et al., US 6,553,934 is considered to be the closest related prior art. Gentner however does not disclose that the processor is connected to a memory which stores pulsator malfunction criteria so that when the pulsator vacuum level is out of a predetermined range, the operator is not only given an indicator light (as that of Gentner) but the processor also provides at least one information signal indicative of the type of malfunction that the pulsator is experiencing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly S. Smith whose telephone number is 571-272-6909. The examiner can normally be reached on Monday thru Friday 10:00-4:00.
